MODERATING - THE ICE HARVEST. From 6 o'clock on Monday morning until 12 o'clock yesterday there was a rise in the mercury of thuty degrees. So material a change took from the atmosphere much of its keenness and made it endurable. Ladies appeared on the promenade yesterday, and the retail quarters presented their usual business-like aspect. Above the city the Delaware was stationary, but the iceiont had so broken the ice in front of the city and some distance beyond it that the steam ferry boats were enabled to make their usual trips to Camden and return. Some distance above parties were taking advantage of the elegant skating to indulge in that favorite sport. The ice on the Schuylkill was, in places, about six inches thick, and in most excellent condition for skating. In dealers were making prepara-tions to lay in their stock, and will begin to cut today. They will require clear and cold weather for a week to enable them to fill their houses. The skating on the Schuylkill was never finer. and many graceful skaters were yesterday moving over its glassy surface with an ease and fleet-ness rather actoni-hing to those not practised in the art. Both above and below the dam the skating is good.

THE TEACHERS' WARRANTS .- The heavy discount to which the holders of city war-rants have been subjected, that led the Asso-clation of Male Principals of Public Schools to take action on the matter.
